The United Press International directory is compiled and published by the Personnel Department, New York. Changes and corrections should be reported immediately for inclusion in master lists which are kept up to date for reference at all times and are reproduced photographically for these pages. Closing dates are November 1st, March 1st and July 24th. Bureaus outside U.S.A., when forwarding corrections or new entries, please type entire new listing for the bureau, rather than only the correction.

Numbers in parentheses preceding bureau phone numbers are area codes for direct distance dialing. Bureaus whose area code numbers are subsequently designated should report them for inclusion in the next directory. Please indicate if home phone numbers should list area code numbers different from those assigned to the bureau.
